PROFILE

A proactive B.Tech Computer Science (AI-ML) student with a strong willingness to learn and adapt to emerging technologies, aiming to enhance technical skills and contribute effectively to organizational growth.

EDUCATION

B.Tech **in Computer Science (AIML)**
Sushant University, Gurugram

2023 - Present

PROJECTS

Hand Gestures Recognition Model

JANUARY|2026

- Trained a deep learning model for hand gesture recognition using labeled image.
- Applied augmentation techniques to improve model generalization and reduce overfitting.
- Experimented with hyperparameters to improve classification accuracy and model performance.
- Evaluated model performance using metrics such as accuracy.
- Achieved gesture classification suitable for applications in sign language recognition.

Portfolio Website

NOVEMBER|2025

- Developed a modern personal portfolio website using React, and TypeScript
- Designed and implemented Tailwind CSS, achieving clean layout structure
- Integrated smooth animations and interactive transitions to enhance user experience.
- Structured the application using App Router architecture for improved maintainability
- Showcased projects, skills, education, and contact functionality.

JUNE|2025

SVM Based Dog and Cat Recog.

- Built an SVM-based image classifier to distinguish cats and dogs using the Kaggle dataset.
- Implemented data preprocessing, feature scaling, and model evaluation in Python (Scikitlearn).
- Optimized SVM hyperparameters and experimented with different kernels to improve accuracy.
- Designed an end-to-end supervised learning pipeline for image classification.
- Evaluated model performance using train-test split and accuracy metrics.

TECHNICAL SKILLS

- Programming: Python
- Libraries: NumPy, Pandas, Scikit-learn, Matplotlib, OpenCV, tensorflow
- Web Development: HTML, CSS, JavaScript
- Tools: Git, Jupyter Notebook, Power BI, n8n
- Database : MySQL, MongoDB

SOFT SKILLS

- Decision Making
- Adaptability
- Problem Solving
- Teamwork

LANGUAGES

- Hindi
- English
